**IN & OUT CABINETRY *and* OUTDOOR LIFESTYLE
PRODUCTS WIN PRESTIGIOUS
2008 ADEX AWARDS**

***DESIGN JOURNAL AWARDS* NOTEWORTHY ADEX TO
ENTREPRENURIAL FIRMS FOR
DESIGN EXCELLENCE**

Oneco, FL –In & Out Cabinetry is the recipient yet again of the prestigious ADEX award. This is In & Out's third annual consecutive triumph. The 2008 competition doled out a Platinum Adex to In & Out for Design Excellence. The award-winning firm has established itself as a leader in the design and outdoor kitchen categories for developing a European styled line of low-maintenance cabinet grade all element polymer board outdoor cabinetry.

The ADEX seal for quality design is a national competition juried by

renowned design experts.

Proudly, In & Out is joined in its 2008 win by yet another design star, Outdoor Lifestyle Products (OLP), a burgeoning division of In & Out. Outdoor Lifestyle Products Grill Island (designed for the DIY customer) is the proud recipient of the esteemed Gold Adex for Design Excellence. For Brian Bevin, these awards symbolize his two companies' commitment to innovation and a willingness to face the competition, "This is the first time Outdoor Lifestyle Products competed in the ADEX arena. "It's always exciting to be recognized by the industry," says Bevan, of both In & Out and Outdoor Lifestyle Products. "The overwhelming response we've received from our distributors *and* end-user consumers, is further evidence of how we've met the needs of our demographic sell-through," he says.

Bevan's philosophy from the outset validates his steady business sense. "Outdoor living rooms have taken the best of inside – out," he says. These ADEX wins confirm how right he still is. Early on Bevan believed that the concept of an "outdoor living room" would also come with cooking facilities. Whether it was a fancy gas grill or a complete

kitchen with sinks, ranges and refrigerators — he predicted that In & Out's products were on the cusp of something big.

Like its counterpart, In & Out Cabinetry, Outdoor Lifestyle Products Grill Islands are composed of all element cabinet grade polymer board. Three Grill Island models are available in two colors off the shelf: black and brown.

In & Out manufactures cabinets, shelves and drawer banks. Stylish and modern — the cabinetry is thoughtfully fashioned with functionality, durability and as per the ADEX accolades, plenty of design appeal.
